

MC8207 power amplifier

- With 1400 total Watts of power, the seven-channel MC8207 is ready to deliver the explosive dynamics that home theater systems demand.
- Unlike other high current amplifiers, McIntosh's exclusive DPM circuit delivers the same 200 Watts per channel into either 4-Ohm or 8-Ohm speakers, ensuring that you get all the power you paid for.
- The MC8207 debuts new Active LED Meters indicating how much power is being delivered to the front three speakers at a glance.
- The seven channels can be assigned in a variety of ways. All seven channels can be used in larger theater rooms, or five channels can power your theater with the remaining two channels powering a second zone.
- Massively powerful, the MC8207 retains the smooth, low distortion sound quality that is a hallmark of McIntosh amplifiers.

McIntosh quality, power, and flexibility.

MC8207 power amplifier

General Specifications

Power Output:

200 watts per channel, into 4 or 8 ohm loads, all channels operating, from 20Hz to 20 kHz

Dynamic Headroom:

1.7 dB

Total Harmonic Distortion:

0.005% maximum THD from 250 milliwatts to full power level, 20Hz to 20kHz.

Frequency Response:

+0, 0.25dB from 20Hz to 20kHz
+0, -3dB from 10Hz to 100kHz

Single-to-Noise Ratio (A-Weighted):

112dB below rated output

Intermodulation Distortion:

Less than 0.005% all channels operating with any combination of frequencies between 20Hz and 20 kHz if instantaneous peak does not exceed twice rated output or less.

Input Sensitivity:

2.8 volts 8 ohms, balanced
and 2 volts 4 ohms, balanced

Weight:

81 lbs. (44.2Kg) net, 114 lbs. (51.8 Kg) in shipping carton

Overall Dimensions:

Width is 17-1/2 inches (44.45cm)
Height is 9-7/16 inches (23.97) including feet
Depth is 21 inches (53.3cm) including the front panel and cables.

For the Consumer's Protection:

In order to ensure the highest level of customer satisfaction, "new" McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer. McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be "used" and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.

Companion Products

The McIntosh MX121 Control Center, MVP891 Universal Player, MR88 AM/FM/XM/HD Tuner, MPC1500 Power Controller, LCR80 Center Channel Loudspeaker and the XR100 Loudspeakers are logical companions for the MC8207 Power Amplifier. Your Authorized Dealer can provide additional information.
